		In a standby mode	0.73A	0.40A	0.40A	1.54A	1.18A	0.13A
	w/Optional unit installed	In operation	2.10A	3.38A	2.71A	6.72A	3.08A	-
		In a standby mode	1.25A	0.97A	0.97A	2.15A	2.15A	-

."In operation" indicates the status when the launcher menu is displayed (when not in communication).

."Optional unit" indicates a DSB unit (or DSM unit for PCS-TL30) or ISDN unit.

.Power consumptions for PCS-G70/G50 are the values when PCSA-CG70 is used together.

.The value of PCS-HG90 is only of the main unit. (It is not including a camera unit.)

.The above values are for reference. Please don't take them public out of Sony group.
